## Messages from Roberts.

LONDON, June 20 .- Lord Roberts this afternoon reported that General Hunter had occupied Krugersdorp (west of Johannesburg) without opposition, and that General Methuen, June 19, routed a Boer force which was opposing his entry into Heilbron, in the Orange River Colony.

The silence of Lord Roberts since June 16 had disposed some quarters to believe that his line of communications had been recut, especially as, according to the latest news from the Orange River Colony, the Boers were known to be still hovering about the railroad at Kroonstad. According to a Cape Town dispatch of

this date General Kitchener had a narrow escape from capture in the engagement at Leeuw spruit June 14. He was sleeping in the repair train when it was attacked, and many of the engineers were captured. General Kitchener's sleeping car was at Kopjes Station, when the Boers, under General Dewet, suddenly opened a rifle fire at 3 a. m. Kitchener managed to reach his horse and galloped to Rhenoster, two miles distant. The Boers numbered 900 men, with three guns. They burned the culvert, which had just been rebuilt, and derailed the

The Boers alleged to be hemmed in by General Rundle began shelling Ficksburg yesterday, June 19. It is said they apprehend that a force is marching from the north upon them, and hence they will endeavor to break through southward.

The War Office has received the following dispatch from Lord Roberts: "Pretoria, June 20.-Hunter's advance column occupied Krukersdorp without opposition June 18.

> NEW YORK, June 20.-An application was filed to-day in the Supreme Court in Brooklyn for a temporary receiver for the Republic Savings and Loan Association, by Judge Coyne, deputy attorney general. The court was petitioned to issue an order to the association to appear before it and show cause why a temporary receiver should not take charge of its affairs; why there should not be a general accounting for the benefit of creditors, and why dissolution of the concern should not be ordered. The petition recites that the association is insolvent, and that there is a large deficiency in its accounts. The association has loaned money all over the United States.

WASHINGTON, June 20.—The impression prevalls in the paymaster general's office. War Department, that the Ninth Infantry, which is to proceed from Manila to China, will incur substantial money loss in doing so. By the act of May 16 last Congress provided that United States troops on duty in the Philippines, Porto Rico and Cuba should be allowed 10 per cent. addithe men a bonus under the act of April 26, 1898, which permitted war pay to soldiers serving outside of the United States. The pay officers regarded the latter act as taking the place completely of former, so, as China is not one of the places specified where additional pay may be given the Ninth Infantry will lose a very substantial sum of money by being

called into extra hazardous service. As it is evident, however, that this was not the intent of Congress, the controller of the treasury to-day was called upon by the War Department for a formal construction of the law in this case in the hope that he may find some means of preventing this injustice from being

TEXAS CONVENTION REBUFFED HIS ANTI-EXPANSION IDEAS.

Kansas Prohibitionists Denounce Mc-Kinley and His Canteen-Minnesota Democratic Convention.

BUTTE, Mont., June 20 .- There will be contesting delegations claiming admission from Montana at the Democratic national convention in Kansas City. The convention was called to meet here at noon. An hour before that time the state central committee met to make arrangements. The chairman of the convention, William Cockrell, is a recognized Daly man. The friends of Senator Clark in the committee, including those who held proxies, were in the majority. Chairman Cockrell refused to recognize the proxies, and appointed in the place of the absentees men known to be favora-

ble to Daly. John S. M. McNeill, of Helena, a member of the committee, took the floor and proposed to depose the chairman. The scene in the room at this time was very wild A number of deputies, under the leadership of Under Sheriff Murphy, pushed their way into the room and attempted to eject the tional for the officers and 20 per cent. ad- | Clark people. For a while it looked like an ditional pay for the privates. Up to that incipient riot. The Clark people stood their time the pay department has been paying ground, but finally withdrew, leaving the committee to attend to its business. When this had been done Chairman Cockrell was deposed by the vote of the committee, and Neill was elected in his place.

Meantime the delegates and hundreds of spectators had assembled at the Auditorium, which Cockrell had selected as the place for the meeting. They found the doors barred, and the place in charge of a number of deputy sheriffs and policemen acting under direction of the Daly people. After waiting for an hour they were informed that the convention would not be called to order until 5 o'clock. Before that time the state central committee had met with its chairman presiding, and selected the Grand Opera- House as the regular place of meeting of the convention. Abounds in Omaha Doctrines. MINNEAPOLIS, Minn., June 20.-The Democratic state convention to-day was not only one of the largest ever held by the party in this State for merely delegate purposes, but was the most harmonious and enthusiastic known for years. Charles A Towne, of Duluth, Populist candidate for Vice President, was given the heartiest kind of an indorsement, and the delegates to Kansas City were instructed to support him. The resolution containing this was put through the committee on resolutions with hardly any friction, only two members venturing the opinion that perhaps it would be best not to go too far in the matter. On the floor of the convention the senting vote. The threats to bolt the Towne proposition did not materialize. The antis discovered early in the day that they were

in a hopeless minority. The resolutions adopted favor the free coinage of silver at the "existing legal ratio," which virtually means 16 to 1: denounce trusts; demand that trust articles be placed upon the free list; express sym pathy with the Boers; demand independ ence for Cuba; ask the repeal of war taxes; favor postal savings banks; favor the inators by direct vote of the people and the system of initiative and referendum. The present national administration is

nounced and an alliance with Great Britain is laid at its door. The convention was warm in its eglance to William Jennings Bryan and Governor John Lind, and the Governor was heartily applauded when called to the platform for a speech. The delegates at large are P. B. Winston, D. O. O'Brien, D. O.

Rosin and C. A. Baldwin.

## BAILEY GETS A SETBACK.

His Anti-Expansion Ideas Meet with a

Rebuff in Texas.

AUSTIN, Tex., June 20 .- Contrary to expectation, the Democratic state convention which met here at noon to-day, did not adjourn to-night, nor have delegates been named to the national convention at Kansas City. Instead of transacting its business with promptness, the convention was early thrown into an anti-expansion fight, which waged all afternoon and evening. The fight was precipitated by an effort on the part of Representative Bailey to have the convention indorse his anti-expansion views. Mr. Bailey's political opponents and those favorable to Senator Chilton, his late opponent for the United States Senate. vigorously fought such an indorsement, and, as a result, the convention has been in a wrangle all day. Mr. Bailey's opponents submitted a minority report to the convention, to-night, favoring expansion as against anti-expansion, and the debate will. signed to the Twelfth Infantry and or- in all probability, protract the deliberations of the convention over Thursday. The convention is largely attended, many of the best known politicians of the State

JACKSONVILLE, Fla., June 20.-The State Democratic convention to-day adopted a platform, the main features o which are indorsement of W. J. Bryan for President: a denunciation of trusts; de mand for the repeal of war taxes, and for the 16-to-1 ratio of coinage; government control of corporations; direct vote for senator; a graduated income tax, and reduction of the tariff to a revenue basis. ### A DELEGATE'S TRUNK.

Man Is a Failure When It Comes to Checking Baggage.

New York Evening Sun.

After all those gibes and jeers at the thousand trunks of the Milwaukee Federationists and the sneering comparisons be tween the amount of luggage a woman and a man requires at a convention, it must have done every clubbist good to read yesterday that Chairman Odell had lost his trunk on the way to Philadelphia and couldn't keep a dinner engagement in consequence. What, pray, was the chairman of the New York state Republican commit tee doing with a trunk? Hasn't it been dinged into us women, until we know it by heart, that "when a man attends a convention he tucks his necessary accompaniments into a grip?" Can it be that since the women have been meeting in national session they have taught the men a thing or two-among other things the need of trunks? How Mr. Odell lost his trunk-well, that's another cause for feminine rejoicin There never was a man yet, whatever his other superiorities, who, when it came to checking trunks, wasn't a failure. This, no matter to whom the trunks belong. He's just as apt to lose his own as he is other or thousands of miles and so long as they attend to their trunks themselves the trunks are all right. But just let a man, either case, under the delusion that he is equal to the occasion, tackle the luggage. and something is sure to happen. Either the trunks are delayed, or go astray, or are traded off, or never appear at all-you take your chance of any of many misfortunes the moment you allow a man to take charge. Every woman of us knows that this is so, and every man, in the memory of oft-repeated experiences, must confess it. Perhaps that is one reason why women take trunks to conventions-because they know how to check them. The vice presiwouldn't have had that trunk if it hadn't been for the recent examples of the Milwaukee convention. "What woman has done, man can do." he probably said to himself—but rest assured the reason he lost

The committee rooms of Senators Platt, of New York, and Fairbanks, of Indiana, adjoin each other, but Mr. Platt's room has to be passed before Mr. Fairbanks's can be reached. Yesterday afternoon there was a continuous stream of visitors to Mr Fairbanks, and each visitor naturally asked Senator Platt's clerk if Mr. Fairbanks was in his room. The questions were courteously answered at first, but by the time the ninety-ninth caller had interrupted the clerk in his work, the latter vowed he would not be courteous any longer. Sterling Morton's Conservative. Figures reported from Princeton are to the effect that the average college student is five months older than he was twenty years ago. This agrees with many people's bservation, that parents nowadays rather hold their children back than push them forward, no longer desiring infant prodigles; truly a most praiseworthy tendency. Another thing that one would hardly have foreseen is that the average student's expenditures have decreased 10 per cent. in the same length of time, despite generally

Professors in the University of Havana Object to a New Salary Seale

-An Objectionable Joke.

HAVANA, June 20 .- Maj. E. G. Rathbone, the suspended director general of posts, is being examined by the inspectors attached to the staff of Joseph L. Bristow, the fourth assistant postmaster general, who is in charge of the official investigation into the Cuban postal frauds. This completes Mr. Bristow's duties. Later he will make a report to Governor General Wood, when it will be decided if additional

steps are to be taken. Expert accountants have begun an examination into the books and methods of the engineering department.

The professors of the University of Havana desire that General Wood should not reduce their numbers, thus increasing the salaries of those who remain, but rather that he should retain the present number. The object of proposed reduction is to do away with many instructors who have had only two or thre pupils, and to gauge the efficiency of the others. Powerful influences are being brought to bear against such a change, and a request has been made that the total amount appropriated for salaries should be evenly diided among all the professors, although some work only two or thre hours

The constitutional convention to be held n October will consist of representatives of one to every thousand of the population. To these will be added the chief justice, all the civil governors, two insular secretaries and the rector of the University of Havana. The convention will form a constitution giving Cuba a much more comprehensive self-government than the present system, gradually preparing the co teed by the joint resolution of Congress. The United States transport Burns will leave Cienfuegos June 24 for Bost with sixty-three men teachers and sixtyseven women teachers. Alexis E. Frye, the superintendent of schools, says the waiving of vaccination and quarantine in the case of teachers has caused much satisfaction. Quarantine would not have been necessary on account of Cubans, who do not get yellow fever.

A meeting of the Society of Planters has agreed unanimously to ask General Wood to supply oxen to farmers in certain districts where things are at a standstill, the conditions proposed being to pay in one to three years at 6 per cent. interest. In the province of Havana during the second half of 1899 there were 2,715 legitimate births, 116 being of the colored race. There were also 1,266 illegitimate births, 485 of these being colored. Two hundred and ten of the children died within twenty-

our hours of their birth. A few days ago the Post published what was meant to be an amusing item, de claring that the breath of Cuban ladies smelled of garlic. This caused consider omment in Cuban circles; and to-day a pe ition was presented to General Wood re questing that the editor and proprietor of the Post be expelled from the island for having grossly slandered Cuban woman hood. General Wood has received severa letters from various parts of the i requesting him to mete out to the offender
